Subject: FS Issue 2.3.3 Water PRGs - LWG Initial Questions
Attachments: 02-21-14 Water PRGs Questions draft.doc

Chip and Kristine -

Per our FS Revision Process Matrix, the LWG is to provide additional questions regarding EPA's new water PRGs by 21-Feb-14. The attached memorandum contains some initial questions for you and your team to consider as we gear-up for the PRG technical meeting on March 13. We recognize establishing water PRGs for the site is a complex matter requiring evaluation of the risk assessments, ARARs, and risk management determinations. We want to ensure the development of all PRGs is transparent and defensible in order to withstand the anticipated scrutiny the revised FS will receive (e.g., CSTAG, NRRB, EPA Partners, and the general public). Therefore, many of our questions are geared towards gaining full understanding of the background information and decision-making process associated with each PRG.

Thanks.

Carl
